INNOVATION NOT IMITATION.®

[DUTY GEAR CATALOG 2006]

INNOVATION NOT IMITATION.®

The SAFARILAND® Research and Development Team is a hands-on group of seasoned law enforcement veterans and competitive shooters. They use the products they design, day in and day out. They want the best, and you want the best. And Safariland stops at nothing to deliver just that.

Our R&D Team also has years of experience working with our professional customer base, listening, collaborating and innovating to create products that define the cutting edge. They also offer in-depth training to make sure our customers make the most of our products.

These are just a few of the reasons the SAFARILAND name has become synonymous with the ultimate in duty gear. Wear SAFARILAND and go with confidence.

[SCOTT CARNAHAN]

- Head of SAFARILAND® Research and Development for over 20 years
- Director of Marketing and Product Development for SAFARILAND Duty Gear
- Two-time USPSA National Class Champion
- Manager/shooter on TEAM SAFARILAND over 20 years
- Part of the SAFARILAND team for over 28 years

[BILL ROGERS]

- Former FBI Agent
- Master Class IPSC shooter and former State Trap Champion
- Owner/operator of the Rogers Shooting School since 1975
- Designer/engineer of holsters and related police and military gear for over 30 years
- Former owner of Rogers Holster Company, patented SAFARI-LAMINATE™ process

[TOM CAMPBELL]

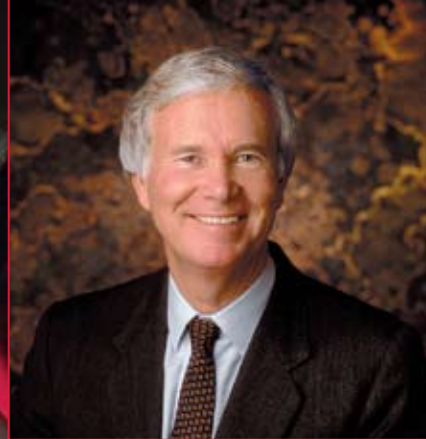

- Over 30 years competitive shooting experience
- LE firearms instructor for 37 years
- 2001 USPSA Limited 10 National Champion
- 13 years on the USPSA Shooting Team/TEAM SAFARILAND member
- 22 years with Smith and Wesson, part of the SAFARILAND team for over 15 years

[MIKE LEHNER]

- LE firearms instructor for 27 years
- Former police officer for major city in California
- NRA distinguished (PPC) Shooter; IDPA Master Class
- 25 years competitive shooting experience
- Part of the SAFARILAND team for over 17 years

INNOVATION NOT IMITATION.®

Throughout our over 45 years in business, our mission has been to research, design and bring to market the most technically advanced duty gear for the law enforcement and military professional, whose safety depends on it. This philosophy goes back to our very early beginnings in the 1960's as we built product on a single workbench.

A big part of our continued success with you, our customer is the Safariland Research & Development team and the shared experience, commitment and passion they have for the industry and products they develop. Evaluating new materials, testing new designs along with extensive testing in the field and on the range, the R&D team has the ability to bring a product to market that has truly been designed, developed and tested by seasoned professionals.

[SAFARI-LAMINATE™]

Our original and most extensive holster and accessory line. While SAFARI-LAMINATE™ is a durable lamination process used to create many of our products, it is best known as the performance gear that law enforcement professionals recognize as the uniquely famous SAFARILAND® line.

[STX TACTICAL™]

A tactical finish famous for its incredible strength, abrasion resistance and protective qualities. Heat laminated and molded to the exact shape of weapons and accessories for better security. Will not absorb water or sweat, dries quickly, and is easily cleaned with mild soap and water or Armor All. A thin layer of Safari-Suede™ in the liner protects the finish of guns and absorbs excess oils or lubricants.

[NYLOK® PRO]

NYLOK® PRO accessories incorporate the SAFARI-LAMINATE™ process in a special molding process that bonds 1050 denier DuPont nylon to a non collapsible shell. The result is professional looking gear that is lightweight, durable, waterproof and resists tears and fading. We recommend STX Duty holsters for NYLOK® PRO rigs.

[SUPER DUTY™]

Super Duty® gear looks like leather—but without the cost or the maintenance. Can be cleaned with a damp rag—no polishing needed. It is extremely durable, abrasion and fade resistant and retains its function and shape in hot or cold climates.

IMPORTANT NOTE: Individual products may have limited finish or color choices.

AUTOMATIC LOCKING SYSTEM (ALS™) The ALS™ system is the next evolution in retention holsters and builds upon the successful SELF LOCKING SYSTEM (SLS). With many patents to its credit, the key to this system is an internal locking device that secures the weapon in all directions simply upon re-holstering, providing Level II Plus Retention™ which can also be elevated to Level III Plus Retention™ with the addition of the Sentry.

Additionally, holsters with this all-new ergonomic design are completely operable with the thumb making training easy, and the straight up draw makes them very instinctive to use, yet difficult for an assailant's attempted takeaway.

And finally, once the retention devices are released, the weapon can be drawn straight out of the holster with no twisting or other motion required.

The ALS series holsters cover a wide array of market needs from retention duty holsters, to models in our popular tactical offerings, to a belt slide and paddle holster for the concealment markets, both with and without the SLS.

- 1 The ALS is a unique new design that locks into the ejection port and is operated by the thumb once the SLS is released.
- 2 The SLS rotating hood has been tested and proven for many years on the 6280 and 6004 series of holsters. Simply push down and rotate forward as you obtain your shooting grip. To close, pull back on the hood and the SLS self locks. No snaps or straps to manipulate.
- 3 The Hood Guard helps protect the SLS from impact and premature release especially in an attempted take away. Included with all duty and tactical versions.
- 4 Constructed of SAFARI-LAMINATE™, a thermal molded holster to help protect the handgun and vital components for years of use.
- 5 Injection molded jacket slot UNIVERSAL BELT LOOP (UBL) is very strong and comfortable. Available in standard belt ride and 1.5" drop version for 2" or 2.25" belt slots.

6360 [ALS™ LEVEL II PLUS] WITH RIDE UBL

- Level II Plus Retention™
- Level III Plus Retention™ with optional Sentry installed
- ALS™ Automatic Locking System secures weapon once holstered

 - Available for models 0707 and 284; not available for UBL belt loops

UBL
[UNIVERSAL BELT LOOP]

We know that sometimes wearing a holster can be painful. That's why we developed the Universal Belt Loop (UBL). Once you wear it, you'll become a believer. The UBL is stronger and half the weight of the old-style belt loop. Even better, it won't pinch or add pressure to the hip bone.

- Added comfort, especially for the female officer
- Stronger and half the weight of the old style belt loop
- Will not pinch or add pressure to hip bone (support ridge removed from the belt shank)
- Locks onto the duty belt with belt slot design, no belt tension screws needed, will not damage top of belt
- Easier to mount onto the belt
- Converts holster to the 3-hole pattern, can convert holster to other style belt loops, (i.e. Drop version for duty, concealment, paddle, belt-slide, or tactical)

6070UBL
2" or 2.25"

P2201
Converts 2.25" UBL to a 2" belt slot

6075UBL
2" or 2.25"

560BL
Up to 1.75"

561BL
Up to 1.75"

6281BL
1.5", 1.75" or 2.25"

- 6001**

NYLOK® PRO

IT'S TIME TO GO PRO...

NYLOK® PRO answers law enforcement's need for lightweight, professional-looking equipment that can stand up to the toughest abuse. Made of durable ballistic nylon, it's lightweight, rugged and resists scuffs, tears, and fading.

The new NYLOK® PRO product line combines the best of our original, patented NYLOK® Survival Gear line, with major improvements. We have added molded accessories of SAFARI-LAMINATE™ with non-glare black matte snap closures that fit belts up to 2.25" for a sharper, cleaner look. In addition, NYLOK® PRO has been upgraded from a 950 denier to a 1050 denier. Law enforcement professionals know...it's time to go PRO.

The NYLOK® PRO line of accessories was designed to be used with SAFARILAND'S STX TACTICAL™ duty holsters.

LEVITATION™

LEVITATION™ TUBE BELT:

For the ultimate in comfort, try the LEVITATION™ Tube Belt System. Top and bottom tubes on the belt eliminate pressure on your hips and back. Accessories lock-on to the belt from the outside, thus eliminating the bumps and edges between the belt and your waist. The LEVITATION™ can make wearing your duty rig much more pleasant.

- A smarter approach to Duty Belts
- Designed with soft and flexible tubing to increase comfort
- Less than half the weight of conventional duty belts
- Top and bottom tubes eliminate pressure on hips and back
- "Lock-on" system attaches to holster and accessories utilizing a locking wedge that completely secures the holster and accessories to the belt eliminating the bumps and edges between the belt and your waist
- Must be worn with the 99 or 992 hook-and-loop under belts, keepers are not needed
- Available in NYLOK® PRO finish only
- Contact SAFARILAND® for information, video or CD-Rom

CONCEALMENT HOLSTERS: UNDERCOVER OR PLAINCLOTHES....

Whether you need an "invisible" holster for deep undercover, a comfortable concealable holster for long hours of plainclothes duty, or simply a reliable holster for off-duty use but concealed, you can rely on SAFARILAND® products. Our holsters offer comfort in a variety of popular designs, models, and finishes—all with a low-profile print and reliable performance.

0701 [CONCEALMENT HOLSTER]

- Features a dual retention system consisting of the trigger guard strap and an internal lock
- Mid-ride belt position and slight tilt forward for comfortable wear and smooth draw
- Tough outer layer adds further protection
- Available in STX TACTICAL™ finish

0702 [SELF-SECURING PADDLE CONCEALMENT HOLSTER]

- Features a unique spring-loaded, self-securing frame jack, automatically locks on the ejection port when you re-holster
- No straps and no snaps
- Mid-ride belt position and slight tilt forward for comfortable wear and smooth draw
- Comes standard with a comfortable paddle
- Fits belts up to 1.5" (38mm)
- For pistols only
- Available in STX TACTICAL™ finish

0706 [SELF-SECURING BELT SLIDE HOLSTER]

- Features a unique spring-loaded, self-securing frame jack, automatically locks on the ejection port when you re-holster
- No straps and no snaps
- Comes standard with a belt-slide
- Can be worn in a cross-draw position
- Fits 1.5" (38mm), 1.75" (45mm), and 2.25" (58mm) belt loops. Please specify
- Available in STX TACTICAL™ finish

329 [CONTOUR CONCEALMENT HOLSTER]

- Originally designed for women, but very comfortable for men as well
- Low-cut front, no need to raise handgun very high to clear holster
- Utilizes thumb break design
- Sturdy, flexible belt loop for added comfort
- Holster stays close to body when closed, yet moves away when unsnapped for ease of draw
- Fits belts up to 1.25" (32mm) wide
- Adjustable tension device
- Constructed of sturdy SAFARI-LAMINATE™

528 [OPEN TOP PANCAKE HOLSTER]

- Specially designed for a Federal Law Enforcement Agency
- Holster covers muzzle of gun protecting your weapon and clothing
- Low profile body hugging
- Features a molded detent that grips the trigger guard
- Fits 1.75" (45mm) belt loop
- Available in Plain Black finish

747 [PANCAKE CONCEALMENT HOLSTER]

- Specially designed for a Federal Law Enforcement Agency
- Extremely low profile, compact and body hugging
- Thumb break/hammer strap and top draw design
- Fits belts up to 1.75" (45mm)
- Available in Plain Black finish

329
The 329 holster stays close to body when closed, yet moves away when unsnapped for ease of draw.

25
[INSIDE-THE-POCKET HOLSTER]

- Extra-thin, extra-soft holster for extra-deep concealment
- Available in Plain Black finish

518
[PADDLE HOLSTER]

- Features medium to hi-ride carry, wrap-around design, and adjustable tensioning device to provide excellent weapon retention
- Suede-lined, custom-formed thumb break paddle holster is lightweight and comfortable
- Available in Plain Black, Basket Weave or Carbon Fiber Look finish

27
[INSIDE-THE-PANTS HOLSTER]

- J-shaped belt hook can be worn with any belt
- Available in Plain Black finish

5181
[OPEN TOP PADDLE HOLSTER]

- Thermal-molded, self-lock paddle allows for easy placement and removal of the holster
- Tension device allows for customizing holster draw by adjusting resistance
- Available in Plain Black or STX TACTICAL™ finish

012 COMPETITION HOLSTER

- Body machined out of aluminum to stabilize the handgun, but offers little resistance for a secure and fast draw
- Fits 1911's, SVI's and CZ clones from 5" to 7.5" (13cm to 19cm) in length, with or without scopes
- Patented injection molded adjustable trigger guard lock
- Front nosepiece designed to retain handgun
- Will help prevent gun from being knocked out of a holster while seated
- Able to adjust holster up and down, twist in or out, angle forward or back to custom fit your draw
- Available in Black nylon only
- Order **5012** for 54307 Levitation™ Belt

SAFARILAND® Competition Holsters and LEVITATION™ Belt...the perfect combination for serious competitors.

The SAFARILAND® Competition LEVITATION™ Rig is so comfortable and so fast, it will work magic on your draw. The featherweight LEVITATION™ Belt molds to the contours of your body and features hollow tubes on top and bottom that roll away from pressure. The result is the most comfortable belt on the market. And our Competition Holsters are machined out of aluminum for stability, while offering little resistance to your drawing action. Together they form a combination that meets the needs of today's shooters.

- 1 Hollow tube design rolls away from pressure to keep you comfortable
- 2 Fully adjustable magazine pouches for a custom fit
- 3 Adjustable tension device for a custom fit
- 4 Aluminum base provides stable gun position and drawing base
- 5 Adjustable muzzle guard

5012

012

010 ["TACTICAL OPTION" HOLSTER]

- The world's fastest tactical competition holster features our patented injection molded, adjustable trigger guard locking device which prevents the pistol from rocking forward
- Fingertip tension knob instantly adjusts the holster's "grip" on the weapon
- Hook-lined belt tab works with our loop lined under belt and competition belts to form a stable mounting system that allows you to quickly adjust cant and angle
- Fits scoped and non-scoped pistols 5" to 7" (13cm to 18cm)
- Available in Carbon Fiber Look and STX TACTICAL™ finish.

007 COMPETITION HOLSTER

- Features a hook-and-loop lined adjustable belt loop
- Front is low-cut to promote the smoothest, quickest draw
- Hook-and-loop lined belt tab provides a firm and adjustable carry when used with SAFARILAND® hook-and-loop lined belts
- Holster cant or angle can quickly be changed with no loss of weapon stability
- Adjustable tension device
- Locks on ejection port
- For pistols only
- Available in Black with Basket Weave or STX TACTICAL™ finish

002 ["CUP CHALLENGE" COMPETITION HOLSTER]

- Features dual-tension screws on the holster body; one in back of cylinder and other in back of barrel allowing a balanced retention of the handgun
- Hook-and-loop lined belt tab provides a firm and adjustable carry when used with SAFARILAND® 028 or 4350 buckleless hook-and-loop lined competition belts
- Accommodates both scoped and non-scoped revolvers as well as most revolvers with standard, heavy, and slab side barrels
- Built-in removable muzzle strap protects front sights
- Available in new Carbon Fiber Look, Black with Basket Weave or STX TACTICAL™ or Carbon Fiber Look finishes

771/5771
[MAGAZINE HOLDER]

- Features two magazine tensioning screws on back side of the holster to adjust tension on both the middle and end of the magazine
- Sits against plastic rollers that reduce drag during draw
- Open-front design keeps your index finger from touching the holder during reload, assuring fast reload
- 771 available in Basket Weave, STX TACTICAL™ or Carbon Fiber Look finishes
- Order 5771 for LEVITATION™ System—available in STX TACTICAL™ finish only

773/5773
[ADJUSTABLE MAGAZINE POUCH]

- Utilizes the 90-degree adjustable belt loop
- 2 sets of tension screws threaded through rollers for greater adjustment and lightning-fast reloads
- Closed low-cut front to help secure magazine and prevent it from being knocked out the front of the pouch
- Built-up channel for clearance of the bullet during the draw
- 773 available in Basket Weave, STX TACTICAL™ or Carbon Fiber Look finishes
- Order 5773 for LEVITATION™ System—available in STX TACTICAL™ finish only

177
[MAGAZINE HOLDER]

SAFARILAND® Holsters and Duty Gear systems are designed to meet the demand for high performance police products. Close tolerances for holster/handgun fit require consistent handgun specifications and characteristics as well as extremely precise holster design.

For more than 40 years, SAFARILAND has produced products of quality materials with efficiency and safety in mind. For your protection and safety, it is strongly suggested that these warnings be read, understood, and adhered to prior to the purchase or use of any SAFARILAND product.

Although these warnings may not pertain to all SAFARILAND products, or all circumstances, they should be read prior to the purchase, sale or use of any SAFARILAND product.

Some SAFARILAND products have special and/or supplemental instructions and/or safety information that must be read prior to their use. Call SAFARILAND® (800) 347-1200 for copies of these materials.

[TRAINING AND PRACTICE]

Use of a handgun under any circumstance may be dangerous. SERIOUS INJURY OR EVEN DEATH may result without proper training in the safe handling of firearms. Proper training should be obtained from an accredited firearms safety program conducted by competent, qualified instructors in the military, police academies or National Rifle Association affiliated instruction programs.

We strongly recommend a regular holster practice regime be utilized to assure the continued capabilities of both the SAFARILAND product and its user. Should you have any questions concerning your SAFARILAND products, call SAFARILAND toll free at (800) 347-1200.

[PROPER HOLSTER FIT]

NEVER PLACE A LOADED HANDGUN IN A HOLSTER WITHOUT FIRST TESTING FOR PROPER FIT WITH THE HANDGUN UNLOADED. Although SAFARILAND attempts to provide accurate information regarding which specific holster models were designed to accommodate a specifically identified handgun, or handguns, SAFARILAND does not warrant the accuracy of such information and specifically disclaims any responsibility or liability for, or consequences resulting from errors or inaccuracies in such information. Users are advised not to rely on such compatibility information but are advised to personally verify holster/handgun compatibility in each and every case using actual products.

Handgun manufacturers continually update manufacturing specification in their quest for better products. These changes may occur one or more times within a particular handgun model year, and make it difficult for proper handgun identification and holster fit.

The slightest change in handgun design can have a major safety effect on the SAFARILAND close tolerance products. These changes may not affect other holster brands that do not maintain the SAFARILAND high standards.

If the user has any questions or doubt concerning holster fit, contact SAFARILAND immediately as to which version of a particular handgun you and/or your customer may possess and its compatibility with SAFARILAND holsters.

Be advised that it is the user's responsibility to periodically check his or her holster and related hardware for proper fit and function. Should any product, including a SAFARILAND product, become worn, loose, broken, defective or ill fitting, CEASE USE IMMEDIATELY.

[OTHER VERY IMPORTANT WARNINGS]

DO NOT use SAFARILAND holsters with custom or modified guns, broken, worn or inferior manufactured guns, including guns that are not of original factory specifications. DO NOT use after-market grips not manufactured by SAFARILAND, grip adapters, target hammers, target triggers, or trigger shoes. After market handgun modifications may cause improper holster fit and ACCIDENTAL HANDGUN DISCHARGE. Never attempt to modify SAFARILAND products in any way.

Do not attempt to cock a handgun while holstered as such cocking can cause severe damage to either the handgun or holster, or both, and may cause an ACCIDENTAL DISCHARGE.

Some users of certain handgun models insist on carrying the weapon in what is referred to as a cocked and locked condition (i.e., the gun is cocked with the safety engaged). SAFARILAND does not recommend or approve of any such practice, and advises against it. This condition for such handguns should be reserved only for the most advanced, experienced and skilled professional shooters under conditions that require the handgun to be drawn and fired under extremely short time constraints. Carrying a handgun in this condition INCREASES THE RISK OF ACCIDENTAL DISCHARGE. It should only be used by those who have the training and experience to recognize the inherent risks associated with it.

It should be noted that NO HOLSTER IS COMPLETELY SNATCH-PROOF OR TAKEAWAY-PROOF. Therefore, the user must exercise extreme diligence at all times in any situation where another person may attempt to take the user's handgun. The handgun should be held in place by the user whenever vigorous activity such as running, jumping, falling or tumbling is encountered or attempted. ALWAYS keep safety straps snapped if the holster is so equipped.

Keep thumb on back of hammer or slide when inserting handgun in holster to help assure no movement occurs during insertion. Always keep fingers clear of trigger when drawing or replacing handgun in holster. Place index finger on outside of trigger guard to resist inadvertent strap or foreign object interference when re-holstering.
